配当 学年	1回生以上	単位数	2	開講年度・ 開講期	2022・ 後期	曜時限	水3	授業 形態	講義	使用 言語	英語
【授業の概要・目的】											
This course is provided in English by the Global Health Interdisciplinary Unit. It includes a wide variety of classes to provide students with insight into global health challenges. Students will be introduced to the socio-cultural, economic, political, and environmental factors that globally affect the health of populations. A series of guest speakers will be drawn from diverse fields to share their expertise. We welcome students from all faculties and graduate schools.											
【到達目標】											
To gain a wide range of perspectives and critical knowledge about current global health issues. Students will be able to understand why tackling global health issues is such an important endeavor to reduce poverty, build stronger economies, and promote peace.
