

The Graduate Program for Medical Innovation (MIP)
Guideline on Final Screening and Certification

29 October 2021

The Graduate Program for Medical Innovation (MIP)

The final screening and certification for students of The Graduate Program for Medical Innovation (MIP) will be carried out as follows:

1. Eligible subjects

Students of the MIP Program who have satisfied or are expected to fulfill all of the following requirements:

- (1) Those who have submitted their application for doctoral dissertation at the affiliated graduate school.
- (2) Those who have completed all compulsory subjects and earned enough number of credits for completion of MIP before the dissertation.
- (3) Those who have completed necessary activities for completion of MIP before the dissertation.

2. Submission of Application for Final Screening and Certification

Those who wish to apply for final screening and certification should submit the following documents before the specified deadline:

- (1) Program Completion Screening Request (Form 1)
- (2) Program Course Result Report (Form 2)

3. Final Screening and Certification Committee

Those chosen by the Final Screening and Certification Committee will undergo an oral examination as well as a final screening:

- (1) The final screening will be carried out as a public hearing.
- (2) Slides (prepared by PowerPoint or other software) should be used for your presentation.

Supplementary note

1. This agreement shall be implemented from 23 November 2021.
