Course Registration for the Graduate Program for Medical Innovation

The Graduate Program in Medical Innovation (MIP) will hold registration for the full-year and first semester courses in 2024 as follows.
If you are planning to apply to the MIP, please check the MIP course guidelines and the following before registering.
Registration for the second semester will be announced in early August (tentative).

0. Please check first.

-Please register for courses in the full-year and the first semester. Please note that course registration cannot be cancelled after the course registration revision period (April 23 - April 24). Please be aware of this before registering.

-For the Core Medical Education Course, the applicant excluding medical graduates in Japan will be notified whether or not to be exempted from the course based on the transcripts included in the application documents.
If you wish to confirm your application before submitting them, please send an e-mail to the Office of Student Affairs Graduate School of Medicine with the following information and a copy of your transcript.

1) Names of courses already taken (year of study, number of credits)
2) Names of courses you wish to be exempted from taking (number of credits)

-Please refer to the "Graduate School Course Schedule" on the following URL for the schedule of the core medical education courses. Please note that you will not be able to register for "Pathology", "Immunology", "Medical Genetics", and "Social, Environmental and Preventive Medicine" due to the early start of classes (After 8 April). These courses can be taken in the second year of study.
